

SUMPTEK

IT'S MORE THAN JUST A PUMP

1/2HP SUMP PUMP

SumpTek pumps are not only the most reliable, they are also the most technologically advanced. With built-in pump monitoring capability, self testing feature, audible alarm, and a secondary emergency backup switch: SumpTek pumps offer maximum protection when you need it most.

Controller

- Automatically tests the pump every 7 days to ensure operation
- Built-in high water alarm
- Monitors pump for high or low motor current
- Will sound an alarm whenever a problem is detected

Switch

- Primary and secondary backup switch for maximum protection
- No moving parts or pieces to wear out or malfunction
- Extremely reliable design that far outlasts standard type switches

Pump

- High output
- Energy efficient
- Heavy duty cast iron construction
- Long lasting performance
