

HIGH OUTPUT SUMP PUMP

MODEL 3989 3/4 HP

- Rugged stainless steel and cast iron construction maximizes pump life
- Stationary switch outperforms conventional switches
- Slender profile designed for 10" diameter sump basin and larger
- Heavy-duty high-efficiency motor for quiet operation with 115v overload protection

- Patented switch technology – prolongs the life of the pump
- Maintenance free switch – operation unaffected by severe sump conditions
- Audible high water alarm – instant alert protects against high-water damage
- Remote alarm – connects to most home security systems
