

SP33 *1/3hp*

SP50 *1/2hp*

SP75 *3/4hp*

Best Performance in the Industry

- Maximum flow rate to 80gpm (SP75), 66gpm (SP50), 50gpm, (SP33)
- Maximum shutoff head of 33'
- Permanent split capacitor motor for reliable, high performance, longer motor life and lower amp draw
- Stainless steel hardware and shaft
- GFCI compatible for safety

Interchangeability with other Sump Pumps

Barnes sump pumps save time and replacement costs because they are interchangeable with competing sump pump models. They require no additional plumbing when replacing most competitors' pumps.

Design Options

- Vertical or tethered floats are easily adjustable for varying conditions: diaphragm switches are also available. Manual operation model available if preferred.
- Piggy back switches – allow for easy troubleshooting by eliminating the need to pull the pump to check for switch failure.

Barnes SP33, SP50, & SP75 sump pumps feature low cost, high performance benefits from a rugged, heavy duty design. The performance exceeds the competition using half the amp draw. Barnes SP33, SP50 & SP75 sump pumps are robustly designed for long operational life and dependable service.

SP33, SP50, SP75 Series

Compact Design

Enables pump to fit into 5 gallon buckets or laundry tray systems for portability and easy service.

Additional

- Cast iron vortex impeller design permits passage of ½" spherical solids without clogging
- Permanent split capacitor motor operates at a higher efficiency and draws fewer amps.
- Upper and lower ball bearings are oil lubricated to provide quieter running and longer life.
- Robust design with stainless steel shaft, hardware, and a heavy duty industrial Type 21 carbon/ceramic seal.
- SP33 is available in a high temperature model for 185 degree Fahrenheit intermittent service.
