

# Liberty Pumps®

## Pro-Series Accessories

Passes 10' stack test when installed  
with a 370-380XL system

### X8, X8-D

#### 8" Basin Extension

Sealed basin extension increases PRO-Series height by 8", allowing longer pitched pipe runs to the inlet connection.

*Model X8 Fits both PRO370 and PRO380-Series Simplex Systems*

*Model X8-D Fits PRO680 Duplex Systems*

Basin extensions include gasket, stainless steel hardware, longer QuickTree® for float mounting, and discharge pipe extension.

To order the extension factory assembled to a PRO-Series system, add "X8" or "X8D" to model number

Examples: P382X8LE41, P682X8DXPRG101

### ARC18 Access Riser

For below grade burial of pipes and electrical connections

*Fits both PRO370 and PRO380-Series Systems*

**ARC18** Access riser and Cover

**AR18** Access riser only (no cover)

**AC18** Cover only

#### Installation Kits

Provides all the necessary components for a professional installation inside the riser. Kits include: JB-series wiring box and hardware, 2" check valve with disconnect union feature, coupling and elbow. (2" PVC piping not included.) Kits available in 2" pipe size only.

**IKIT2-115** 2" piping installation kit, 115V
